

Year 2 - Autumn Term - Medium Term Plan

Area of Maths	Focus	Objectives
Number	Place Value	<ul style="list-style-type: none"> <li>● Read and write numbers to at least 100 in numerals and words</li> <li>● Order and compare numbers 0-100 using <math>&lt;</math> <math>&gt;</math> and <math>=</math> signs</li> <li>● Recognise the place value of each digit in a 2-digit number (tens, ones)</li> <li>● Identify, represent and estimate numbers using different representations including a number line</li> <li>● Use place value and number facts to solve problems</li> </ul>
	Addition and Subtraction	<ul style="list-style-type: none"> <li>● Count in steps of 2, 3 and 5 from 0, and in tens from any number, forward and backward</li> <li>● Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100</li> <li>● Add and subtract using concrete objects, pictorial representations and mentally, including: a 2-digit number and ones; a 2-digit number and tens; two 2-digit numbers; adding three 1-digit numbers.</li> <li>● Know that addition of 2 numbers can be done in any order (commutative) and subtraction from 1 number to another cannot.</li> <li>● Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems</li> </ul>
	Multiplication	<ul style="list-style-type: none"> <li>● Recall and use multiplication facts for the 2, 5, and 10 times tables, including recognising odd and even numbers</li> <li>● Recognise multiplication as equal groups and represent using pictorial examples including arrays</li> <li>● Calculate mathematical statements for multiplication and write them using signs</li> <li>● Solve problems involving multiplication using materials, arrays, repeated addition, mental methods and fact families</li> <li>● Show that multiplication of 2 numbers can be done in any order (commutative) but division from 1 number to another cannot</li> </ul>
Measurement	Money	<ul style="list-style-type: none"> <li>● Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value</li> <li>● Find different combinations of coins that equal the same amount of money</li> </ul>

		<ul style="list-style-type: none"><li>• Solve simple problems involving addition and subtraction of money, including giving change</li></ul>
